2. Long tracksuit trousers or short

3. Blue tracksuit jacket or hoodie sweatshirt

Sizes

Tables below show the measurements of the garments using the following measurement method:

Top parts

Width

Measure in resting position using the horizontal line running from armpit to armpit.

Length

Measure in resting position using the vertical line running from shoulder to bottom end of t-shirt.

Bottom parts

Waist

Measure in resting position using the horizontal line that goes from the top left to the top right. Stretching the elastic bit adds up to 5 centimetres approx.

Hip

This measurement is used for skirts from size 16. Use a horizontal line that goes from the edge of the left pocket to the edge of the right pocket.

Length

Measure in resting position using a line from the centre of the crotch to the bottom of the leg.

Please make sure you use clothing that your children currently wear to make sure the uniform pieces ordered are as accurate as possible.

Measuring in resting position means measuring the garment without wearing it. That means laying them flat over a table or similar.
